

$$1- \text{Wins} = 11.87 + \underline{0.101} \text{ Payroll} - 0.060 \text{ League}$$

\swarrow
 National
 \searrow
 American

Stop: For Two Teams in the same League, for one unit of increase in Payroll, on average, wins increase by 0.101.

For American, $\beta_0 = 11.87 - 0.060$

$$\text{wins} = 11.87 + 0.101(98) - 0.060(0) = 81.168$$
